

AGED CARE IN A CLASS OF ITS OWN

Nestled within quiet leafy surrounds St Vincent's Care Corinda redefines the expectations of residential aged care. This is where premium living meets the highest standards of individual support.

We're here to help you celebrate all the things you love - because you can't say the best moments are behind you until you've lived all those in front of you.

It's about more than stylish communal spaces, al fresco dining, European inspired gardens, and contemporary design. Here you can live life to the fullest knowing that your comfort and wellbeing are at the heart of everything we do.

WHY DO PEOPLE CHOOSE ST VINCENT'S CARE?

**QUITE SIMPLY BECAUSE WE DON'T JUST
CARE FOR YOU, WE CELEBRATE YOU.**

We understand that everyone is different – which is why we tailor our care model to achieve the right outcomes for every individual's aged care journey.

This could range from something as simple as, "I like time in the garden every day" to a more complex issue like, "Mum has a fear of new situations and doesn't want to immediately participate in large group activities, but would like to make friends in a one-on-one setting."

Outcomes, and the paths to them, are different for everyone. We want people to be able to age with dignity and be treated with respect. Having their choices supported is a key part of this.

“My aunt was adamant that she was not going into an aged care facility. She now looks great! She has companions and enjoys being part of the daily activities. She refers to the facility as ‘home’.

The staff are wonderful. They look after her beautifully and treat us as a family with care and advise us regularly on what is going on and the things she needs. I am so glad that we as a family chose St Vincent’s Care.”

SPECIALISED CARE. 24/7 SUPPORT. THIS IS STANDARD.

As one of the only aged care providers that is part of a wider hospital network – St Vincent’s Health Australia – we have a unique clinical advantage that gives us access to:

- Expert medical and clinical advice for complex care situations
- Advanced outbreak management procedures and fast-tracked testing services
- Palliative care specialists
- Registered nurses on site 24/7

This advantage helps us minimise the risk of outbreaks within our facilities, improve outcomes for residents and gives families the extra peace of mind that their loved ones are safe.
